

## Assignment -1

### HOME AUTOMATION USING SENSORS IN TINKERCAD

Assignment Date	15 September 2022
Student Name	CHATAKONDA SUJITH
Student Roll Number	721419106005
Maximum Marks	2 Marks

#### Question:

Make a smart home with 2-3 sensors , LED and Buzzer in single code and connections .

#### Solutions:

##### CODE:

```
int trigger_pin = 2;
int echo_pin = 3; int
buzzer_pin = 10; int
time; int distance;
void setup()

{
    Serial.begin (9600);    pinMode
(trigger_pin, OUTPUT);    pinMode
(echo_pin, INPUT);        pinMode
(buzzer_pin, OUTPUT);    pinMode
(10,OUTPUT);

}
void loop()
{
```

```

    digitalWrite(13,HIGH);
digitalWrite(13,LOW);    double
a = analogRead(A0);    double c
= (((a/1024)*5)-0.5)*100;

    Serial.print("Celsius value: ");
Serial.println(c);    delay(1000);
digitalWrite (trigger_pin, HIGH);
delayMicroseconds (10);
digitalWrite (trigger_pin, LOW);
time = pulseIn (echo_pin, HIGH);
distance = (time * 0.034) / 2;

if (distance <= 10)
{
    Serial.println (" Door Open ");
    Serial.print (" Distance= ");
Serial.println (distance);

    digitalWrite (buzzer_pin, HIGH);
delay (500);

}
else {
    Serial.println (" Door closed ");
    Serial.print (" Distance= ");
Serial.println (distance);

    digitalWrite (buzzer_pin, LOW);
    delay (500);
}

```

}
